Number Of Volunteers: 15

GOALS:

- To bring forth innovative ideas and solutions to the problem statements provided by the Space Apps Team.
- To encourage students to know about hackathon culture and how to solve realtime issues or problems using NASA open data
- To form Space Apps student community in tier 2 and tier 3 colleges
- People selected in Pre-Qualification will be sent to local level of hackathon where they will be competing with different zonal winners

BOOTCAMPS CONDUCTED:

G. Narayanamma Institute of Technology and Science(for women), HYDERABAD:

GUESTS: Sai Kiran Katapally (Founder of SUMVN and Space App India) and SUMVN Team

No of Students attended: 450

The boot camps for pre-qualifier round of hackathon were conducted by G.Narayanamma Institute of Technology and Science(for women), Hyderabad organizing team where our guest Mr. Sai Kiran, introduced our students about the event and its importance. They gave presentation on how the event was conducted back in 2019,2020 and 2021. They talked about how the pre-qualifier event would be conducted in the college including the procedure to register, innovate and a few tips on how to pitch an idea and also about the impact it would create on their carrier. They talked about their plans to start a Space Apps Community to help students interact with each other and build up their projects for next year's challenges. It would be a technical community which would ensure to teach students new skills and encourage them to work on their projects and ideas. They introduced the challenges of previous year on which the students need to on work and gave them a detailed information about what the themes dealt with. The student was also made to join the interactive session where they had the opportunity to have a clear picture about the event.

ABOUT THE EVENT (in detail):

The event began with an inauguration ceremony after which the pitching started. Up to 30 teams were registered and participated as a part of the pre-qualifier round. During the elevator pitch, each team was given about 2 minutes to register their team into the competition.

Post lunch, the students started working on their ideas from given challenges. The mentoring was provided to students by experts on android developing, web developing, artificial intelligence and blockchain. They were also mentored on projects related to Civil, Electrical, Electronic and Mechanical backgrounds.

Students were able to interact with mentors from SUMVN and get valuable inputs from them and validate their ideas and work on the loopholes their ideas might have. After which the mentor validated the ideas of the students.

During the first scrutinization each team was given 3-5 minutes of time to pitch their idea among which top 10 teams were selected to move into the next round.

The second round of pitching started after breakfast after which top 4 teams were selected by the jury and awarded

MEMBERS OF THE JURY

- **Mr. Sai Kiran katapally** (local lead of Space Apps)
- **Dr. Kaushik Madakasira** (Center head ACIC CBIT research and Entrepreneurship foundation)
- **Mr. Manish Kumar Gutta** (Founder and CEO of Outshade)
- **Mr. Kalyan Dikshit** (Technical speaker)
- **Mr. Baradwaj Arvapally** (Co-founder, ABTechVille and Product Manager at IoT research labs)

The winners were selected based on how technically sound they were, their creativity and the open data sets used by the students. The winners were also chosen for a bootcamp that was conducted on 13th of June 2022, where they were asked to update about the progress about the project that they presented on the day of the hackathon.

The pre-qualification hackathon conducted at our college by SUMVN was very useful to our students in exploring their innovative skill and enhancing their knowledge levels.

- The bootcamp which held before the hackathon was good, as our students were very curious to be part of this hackathon, we got to know about the no.Of participants and had a chance to listen to their ideas which were all unique and innovative. Overall, it was good experience as it was the first hackathon in our college
- We are looking forward for the next years hackathon and our best wishes for your future hackathons

Future Development:

- To create a community called space Apps student community to ensure that the students learn about technology and build up their ideas into products and solve real time problem of world which will be addressing in upcoming hackathons which are going to be conducted in the future.
- To support the students selected to the next round of Space Apps Hackathon by providing relevant mentors and technical experts
- To support innovations in the community from layman and young students.
