SPACE APPS CHALLENGE EVENT REPORT (Pre-Qualifier Round)

CONCEPT:

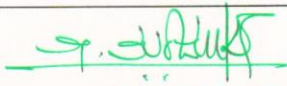

Space Apps is an international hackathon that occurs over 48 hours in cities around the world. Coders, scientists, designers, storytellers, makers, builders, technologists, and everyone enthusiastic about curiosity come together to address challenges we face on Earth and in space!

The International Space Apps Challenge is an international mass collaboration focused on space exploration that takes place in different cities around the world. The event embraces collaborative problem solving with a goal of producing relevant open-source solutions to address global needs applicable to both life on Earth and life in space. NASA is leading this global collaboration along with a number of government collaborators and over 100 local organizing teams across the globe.

DATE: 26th and 27th September 2018

ABOUT THE EVENT (in detail):

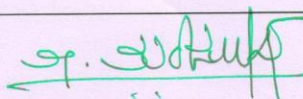

The event had been organized by the CSE Department of Sir MVIT College, Bengaluru. The event began with an inauguration ceremony after which the pitching started. Up to 22 teams were registered and participated as a part of the pre-qualifier round. During the elevator pitch, each team was given about 2 minutes to present their ideas.

Post lunch, the students started working on their ideas from given challenges. The mentoring was provided to students by experts on Android Developing, Web developing, Artificial Intelligence, Block Chain and Machine Learning.

Students were able to interact with the mentors from SUMVN and get valuable inputs from them and validate their ideas and work on the loopholes their ideas might have. After which the mentor validated the ideas of students.

During the first scrutinization each team was given 3 to 5 minutes of time to pitch their idea among which top 16 teams were selected to move into the next round.

The second round of pitching involved top 5 teams being selected by the jury and awarded.

FEEDBACK AND LEARNING POINTS

Principal:

Dr.V.R.Manjunath

I am Privileged to host zonal level hackathon at Sir MVIT. The event provides an innovative way to solve social and environmental problems. Real time monitoring and interactions with the mentors guided them to understand, analyze and design solutions to the complex challenges.

Convener:

Dr. G.C Banu Prakash

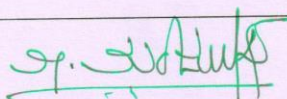

Our students have got good exposure to the real time scenarios by attending the pre-qualification Hackathon organized by SUMVN at our college, and a new dimension thinking capability of the students has made them to innovate and explore the new ideas.

Event Coordinators

It was indeed a great opportunity for our students, who got a platform to exhibit their innovative ideas and go beyond their regular academia. The overall involvement of student organizers along with the faculty led to the grand success of this event.

Future Development

- To create a community to ensure that the students learn about technology and build up their ideas to solve real time problems of world in hackathons which are going to be conducted in the future.
- To support the students selected to the next round of Space Apps hackathon by providing relevant mentors and technical experts.
- To support innovations in the community from layman and young students.
